

JUVENILE ARRESTS

The 2003 juvenile arrest rate of 54 per 1,000 is one of the lowest reported for Washington State since prior to 1980.

Arrest data contained in the following pages were provided by the Washington Uniform Crime Reporting (WUCR) program of the Washington Association of Sheriffs and Police Chiefs. The information is reported by individual law enforcement agencies, collected and categorized by the WUCR. Staff of the Governor's Juvenile Justice Advisory Committee (GJJAC) provided the analysis and summary.

Arrests shown on the following tables actually underreport the number of juveniles arrested; these numbers have not been adjusted by subtracting the population of police jurisdictions that did not report arrest data to UCR. The figures of arrests do not represent every juvenile arrest made during the year, but reflect the information that was reported by the arresting agencies.

Available reports for 2003 represent approximately 92 percent of the state's juvenile population, no change from 2002, and a decrease from 1998 to 2001, when the percentages of the population represented was from 94 to 96 percent. However, the percentage of the juvenile population represented in the past six years is a substantial increase from prior years--available reports for 1997 accounted for about 86 percent of the state's juvenile population, while reports for 1995-1996 accounted for approximately 84 percent.

Rates for the various categories of offenses are based on the population of juveniles age 10 through 17. There were 38,365 juvenile arrests reported in 2003. This figure represents an arrest rate of 54.0 for every thousand juveniles in the state age 10 through 17, relatively no change (an increase of less than one percent) from the 2002 rate of 53.8. The 2003 juvenile arrest rate is one of the lowest reported for Washington State since prior to 1982, and has decreased by 43 percent from 1994 to 2003.

From 1985 to 1988, the arrest rate for juveniles age 10-17 remained fairly steady at approximately 90 per 1,000. The rate decreased in the 1989-1990 period to about 86 per 1,000, and for the years, 1991-1992, the rates were approximately 92 per 1,000. The juvenile arrest rate for 1993 was 90.1, and increased to a high of 94.9 in 1994.

Arrest data for 2003 include 344 juveniles under the age of 10 (representing less than one percent of the total juvenile arrests). There was a slight increase (4 percent) in the number of youth arrested under the age of 10 years, from 2002 to 2003.

.

COMPARING JUVENILE AND ADULT ARRESTS

When comparing arrests for adults and juveniles in Washington State in 2003, juveniles comprised 15 percent of the total number of arrests statewide, a slight decrease from 16 percent in 2002. Adults continue to represent a significantly larger proportion of the arrests for drug and alcohol offenses (90 percent) than juveniles (10 percent).

Juveniles continue to make up a greater proportion of property crimes, comparatively, than other arrest categories when compared to adults (29 percent for juveniles, compared to 71 percent for adults). This shows a decrease from 2002, when adults represented 69 percent of property crimes and juveniles represented 31 percent.

Juveniles continued to represent less than one-fifth (19 percent) of the total arrests for violent crimes in 2003.

.....

The juvenile arrest rate for violent offenses did not change from 2002 to 2003. The rate of arrests for violent offenses was 2.1 per 1,000 juveniles age 10-17 in both years—the lowest rate reported since prior to 1982, when the rate was 2.7 per 1,000 juveniles. There was a 54 percent decrease in the violent crime arrest rate from 1994 to 2003.

Beginning in 1994, the method of accounting for assaults in the Seattle Police Department changed. Twelve classifications of assaults which were previously categorized as "violent offenses" are now categorized as "other offenses". Data in this report do not historically adjust for this change.

The 1,513 arrests of juveniles for violent crimes in 2003 include:

- 8 arrests for murder or manslaughter.
- 200 arrests for rape.
- 890 arrests for aggravated assault.
- 415 arrests for robbery.

Of the above four violent offense categories (see also Table 43), two show a decrease and two show an increase from 2002 to 2003 in the rates per 1,000 juveniles age 10-17: a 50 percent decrease in murder or manslaughter; a 17 percent increase in rape; a slight decrease (less than one percent) in aggravated assault; and a slight increase (2 percent) in robbery.

In 2003, 16 counties had a violent offense rate above the statewide average; Lewis County continued to have the highest reported juvenile violent crime rate—4.0 per 1,000 juveniles age 10-17 in 2002 and 2003.

JUVENILE ARRESTS FOR OTHER OFFENSES

The rate of juvenile arrests for property crimes has continued to decline since 1994. The 2003 rate of 22.1 per 1,000 youth age 10-17 is the lowest reported rate for juvenile property offenses since prior to 1985. The rate of arrests decreased by 57 percent from 1994 to 2003, and by two percent from 2002 to 2003.

Larceny has continued to be the offense for which youth were most often arrested. Larceny (theft) arrests comprised 58 percent of the property crimes in 2003, little change from 59 percent of the total juvenile property crimes in 2002. Approximately 15 percent of the arrests for property crimes were for vandalism, and about 13 percent were for burglary in 2003.

The arrest rate for sex offenses has remained at 0.5 per 1,000 juveniles age 10-17 for a 6-year period (1998 to 2003). This rate is a slight decrease from the rate reported in 1996 of 0.6 percent.

In 2003, the rate of juvenile arrests for drug and alcohol offenses was 11.5 per 1,000 juveniles age 10-17. This represents a very slight increase (less than one percent) in the rate from 2002 to 2003. The 2002 and 2003 rates are consistent with rates for juvenile drug and alcohol offenses from 1994-1995.

Within the drug and alcohol offense category, a much higher proportion of juveniles are arrested for alcohol offenses than for drug offenses. In 2003, drug offenses comprised 38 percent and alcohol offenses comprised 62 percent of all juvenile drug and alcohol arrests. The majority of all juvenile arrests for drug offenses were for "possession" (86 percent in 2003).

.....

JUVENILE ARRESTS BY COUNTY

The arrest rates for counties with very small juvenile populations (such as Columbia, Garfield, and Wahkiakum) may be distorted, because changes of a few arrests can change the rates dramatically.

The five largest counties rank relatively low in arrest rates: King (33rd); Pierce (30th); Snohomish (31st), Spokane (37th, due to significant under-reporting), and Clark (26th).

In 2003, counties with juvenile populations age 10-17 over 5,000, with an arrest rate above the statewide average of 54.0 per 1,000 juveniles age 10-17 in 2003, include: Benton, Chelan, Clallam, Cowlitz, Franklin, Grant, Grays Harbor, Lewis, Okanogan, Skagit, Thurston, Walla Walla, Whatcom, and Yakima.

**JUVENILE
ARRESTS
BY COUNTY
(continued)**

In 2003, two counties (Adams and Benton) had a juvenile arrest rate that was more than twice the statewide average per 1,000 youth for total arrests. Eleven counties had arrest rates that were more than twice the statewide average for arrests for drug and alcohol offenses in 2003: Adams, Asotin, Clallam, Columbia, Garfield, Grant, Grays Harbor, Lincoln, Okanogan, San Juan, and Whitman. Three counties had a juvenile arrest rate for property crimes that was more than double the statewide average: Adams, Benton, and Douglas.

Arrest rates of individual agencies continue to show that sheriffs' departments tend to have lower rates of arrests than do the police departments of incorporated towns and cities.

.

**JUVENILE ARRESTS
BY RACE
AND ETHNICITY**

The racial distribution of total juvenile arrests for 2003 showed that 85 percent were White, 10 percent were Black, 3 percent were American Indian, and 3 percent were Asian youth. This distribution is the same as 2002.

Percentage of Total Juvenile Arrests by Race *					
	1999	2000	2001	2002	2003
White	84	84	85	85	85
Black	9	9	9	10	10
American Indian	3	3	4	3	3
Asian/Pacific Islander	3	3	3	3	3

*Note: Race proportions include persons of Hispanic origin. Persons of Hispanic origin can be of any race.

Arrest rates for violent offenses by race in 2003 show the following:

	WHITE	BLACK	AMERICAN INDIAN	ASIAN & PACIFIC ISLANDER
% of Population Age 10-17	75.6	5.0	2.2	6.8
% of Arrests				
Homicide/Manslaughter	100.0	0	0	0
Rape	86.0	12.0	0.5	1.5
Robbery	61.7	29.9	4.1	4.3
Aggravated Assault*	80.8	12.7	4.0	2.5

* Beginning in 1994 the method of accounting for assaults in Seattle P.D. changed. Prior data included 12 classifications of assaults, which are now categorized as "other offenses."

Note: 2002 population estimates by race/ethnicity include persons of Hispanic origin (of any race) as a separate category; therefore, the above four categories do not total 100%. See Table 15A for 2002 estimates.

.

JUVENILE ARRESTS BY GENDER

Girls are accounting for an increasingly higher proportion of juvenile arrests.

Girls are continuing to account for an increasingly higher proportion of juvenile arrests, particularly for drug and alcohol offenses, and in the “all other offenses” category. In 2003, females accounted for 29 percent of the total juvenile arrests. The percentage of total juvenile arrests committed by females has increased by 11 percent from 1997 to 2003. In comparison, the percentage of total arrests committed by males has decreased by four percent from 1997 to 2003.

During 2003 females accounted for approximately:

- 29 percent of all juvenile arrests (no change from 2002).
- 29 percent of all juvenile arrests for drug and alcohol offenses (an increase from 2002).
- 30 percent of all juvenile arrests for property offenses (no change from 2002).
- 18 percent of all juvenile arrests for violent offenses (no change from 2002).
- 29 percent of all juvenile arrests for all other offenses (no change from 2002).

Arrests of females for violent offenses accounted for approximately 18 percent of the total juvenile violent arrests in both 2002 and 2003, compared to 15 percent of the total violent arrests committed in 2001. The percentage of total arrests of females has remained fairly constant for property crimes from 1997 to 2003, at 28 to 30 percent of total juvenile property arrests.

In 2003, females accounted for approximately 29 percent of the total juvenile arrests for drug and alcohol offenses, a 14 percent increase from 1997, and a very slight increase from 2002. The percentage of total arrests for “all other offenses” committed by females has increased by 16 percent from 1997 to 2003.

King County S.O.	351,843	1,183	3.4
Seattle P.D.	571,900	2,186	3.8

* Agencies did not report arrests to WUCR.

Population figures from "Populations of Cities, Towns, and Counties: April 1, 2000 to April 1, 2003," Estimate 2003, 2003 Population Trends, Forecasting Division, Office of Financial Management, September 2003.

AGENCY ARREST REPORT STATUS

Arrest data contained in the previous pages were provided by the Washington Uniform Crime Reporting (WUCR) program of the Washington Association of Sheriffs and Police Chiefs. This information is reported by individual law enforcement agencies.

The following agencies did not provide any monthly juvenile arrest information for 2003:

Airway Heights P.D.	Coupeville P.D.
Federal Way P.D.	Fife P.D.
Island Co. S.O.	Kent P.D.
Kirkland P.D.	Mabton P.D.
Oakesdale P.D.	Oakville P.D.
Spokane P.D.	Springdale P.D.
Tukwila P.D.	Winlock P.D.

Northport P.D. provided 3 months of juvenile arrests.
Orting P.D. provided 6 months of juvenile arrests.
Port of Seattle P.D. provided 5 months of juvenile arrests.
Reardan P.D. provided 9 months of juvenile arrests.
Shelton P.D. provided 11 months of juvenile arrests.
Snohomish P.D. provided 4 months of juvenile arrests.
Tekoa P.D. provided 7 months of juvenile arrests.
Winthrop P.D. provided 5 months of juvenile arrests.
Woodway P.D. provided 5 months of juvenile arrests.

The following agencies are reporting their crime data in a Wisconsin Incident Based Reporting System (WIBRS) format. These agencies have met the requirements of reporting arrests. However, not all data are represented due to the fact that WIBRS is still in the developmental stages.

Mill Creek P.D.
Monroe P.D.
Oak Harbor P.D.
Lynden P.D.
